Detailed Action

Response to Amendment

Examiner resends the office action of December 11, 2007 with a new reply date as indicated in the telephone interview with Applicant's representative, Mr. Peter Priest on January 8, 2008.

Claims 1-12, 32, 35, and 38-50 are pending. This action is in response to the RCE received October 9, 2007.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-12, 32, 35, and 38-50 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1-12, 32, 35, and 38-50 have been amended to recited "compatible with the preexisting interface software of the ATM that controls a display of the ATM" which does not appear to be in the originally filed specification. Thus, the recitation must be treated as "new matter". However, if the applicant does not believe that this subject matter is "new matter", an appropriate explanation is required including pointing out where support for this subject matter can be found in the original specification.
